Ms. Loper:

Convenient Ventures, LLC is a subsidiary of Shipley Group. LP. Until recently, Convenient Ventures was involved several activities, two of them were as water and a coffee delivery services. Shipley Group determined it wanted to have an independent energy broker company not operating directly under the Shipley name. Shipley is registered in several states as an Electricity and Natural Gas supplier. When the company chose to use one of its existing entities, this did become an expansion for Convenient Ventures. It is managed by the same experienced senior leadership team.

Enclosed is the current organization chart. I believe it is the same one included in the original application.

Convenient Ventures, LLC seeks to become a national broker doing business with commercial and industrial clients in all deregulated states. Given its proximity, Delaware is a very important piece in achieving that goal.

Should you have any more questions or concerns, please do not hesitate to reach out.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Tim Booth', written over a horizontal line.

Tim Booth, General Manager

The Shipley Companies
